Register for eMedication Management Conference June 29th-30th Orlando, FL.

KEYNOTE ADDRESS: Cultivating Health IT as the Voice of Pharmacy
Join Shelly Spiro, R.Ph. Executive Director, Pharmacy HIT Collaborative as Key Note Speaker
• This session will describe the struggles pharmacies face with understanding electronic health records (EHRs) adoption by hospitals and physician office’s as a result of the Centers for Medicare & Medicaid Services (CMS) Meaningful Use of the EHR incentive program and the participant will learn how the voice of pharmacy has an impact on building this awareness.
• This session will discuss the importance of adoption of electronic standards and terminology to support collecting, documenting and exchanging clinical and medication-related information.
• The participant will understand how exchanging this clinical information in a meaningful way has an impact on enhancing pharmacy practice and patient safety.
• This session will describe the benefits of pharmacy management systems adopting pharmacists’ patient care process workflow using EHR functionality. The participant will identify how this adoption can support pharmacy clinical practice and patient care.
