

Brent I. Fox

Pharmacy e-HIT Collaborative

Brent I. Fox is originally from Daphne, Alabama, a bay community outside of Mobile, Alabama. He received a Bachelor of Science in Pharmacy and a Doctor of Pharmacy from Auburn University Harrison School of Pharmacy. After working in the health-system software development industry as a pharmacy specialist, he returned to Auburn where he earned a Doctor of Philosophy degree, serving as a Fellow with the American Foundation for Pharmaceutical Education.

Dr. Fox spent the next two years as an Assistant Professor and the Director of the Center for Pharmacy Informatics at Shenandoah University's Bernard J. Dunn School of Pharmacy. He subsequently returned to the Harrison School of Pharmacy where he served as the Assistant to the Dean for Educational Technology. In this role, Dr. Fox led the evaluation, selection, implementation, training, and monitoring of information technologies to support the School's education, research, and outreach missions.

In his current role as Assistant Professor in the Department of Pharmacy Care Systems, Dr. Fox's teaching, research, and outreach activities are focused on the optimal use of healthcare information technology to improve medication-related outcomes. Dr. Fox is also very active in several national professional associations. He has coauthored two texts on informatics, both published by the American Pharmacists Association.
