Background:

Dr. Madison is an Assistant Professor of Pharmacy Practice with the University of Southern Nevada (USN) College of Pharmacy. She received her Doctor of Pharmacy from the USN - College of Pharmacy and completed a pharmacy practice residency at the New Mexico VA Health Care System. Her practice focuses on patients in the following clinic settings; TB Infection and Control, Sexually Transmitted Disease (STD), HIV Infection and Prevention, Immunization, and Family Planning Clinic services, as well as Disaster Preparedness policies and procedures including mass prophylaxis and vaccination. Dr. Madison is an immunizing pharmacist that has been training student pharmacists, hospital pharmacists, and community pharmacists since 2008 in both Nevada and Utah. Dr. Madison actively participates in both state and national pharmacy organizations facilitating awareness of public health policy, education, and advocacy. She is passionately involved in the development of educational programming for pharmacies and pharmacists in relation to addressing the public health needs of the state of Nevada. She has been providing clinical pharmacy services for the SNHD and didactic teaching for USN College of Pharmacy since August of 2007. She is actively participating in the development of policies that allow the use of interactive technology services to better serve her patients. This is currently being employed in the SNHD TB Clinic via the use of Skype™ to provide directly observed therapy (DOT). Her Health Information Technology (HIT) interests include medication therapeutic management, electronic medical records including e-prescribing, and pharmacy based immunization delivery.

National Organizational Involvement:

American College of Clinical Pharmacy (ACCP) – member since 2004
American Society of Health System Pharmacist (ASHP) – member since 2001
American Pharmacist's Association (APhA) – member since 2001
Nevada Society of Health System Pharmacists (NVSHP) – member since 2008

Most Recent Awards:

Southern Nevada Immunization Coalition (SNIC)
Silver Syringe Award Recipient (November 2010) - Outstanding Innovation in a Public Health Setting
