

## **Federal Advisory Committee Policy & Standards Committee Meeting, July 27, 2016**

Comments made by Shelly Spiro, Pharmacy HIT Collaborative Executive Director

My name is Shelly Spiro; I'm the Executive Director of Pharmacy HIT Collaborative representing over 250,000 members of the majority national pharmacy associations including pharmacy education and accreditation. Our members include key pharmacy organizations involved in Health Information Technology (IT) including the American National Standards Institute (ANSI) accredited Standards Development Organization (SDO) the National Council for Prescription Drug Programs (NCPDP) and 7 associate members representing e-prescribing and health information networks, a standards development organization, transaction processing networks, pharmacy companies, system vendors and other organizations that support pharmacists' services.

We appreciate the work of the 2017 Interoperability Standards Advisory Task Force especially in reference to NCPDP and HL7 standards related to medications and medication-related efforts. As NCPDP Work Group Professional Pharmacy Services Co-Chair and lead of the Medication Therapy Management (MTM) Communication Task Group working on the Pharmacist eCare Plan C-CDA Guidance Document, I'd like to provide a correction to slide 13. The correct document name for the NCPDP/HL7 guidance document is Pharmacist eCare Plan V1.0 (Guidance on the Use of the HL7 Clinical Notes R2.1 Care Plan Template) not Pharmacy eCare Plan.

Thank you,  
Respectfully submitted, Shelly Spiro, RPh, FASCP Response: None
